clover | Official Reseller

# Business moves fast. Your payments should too.

Powerful tech. Local support. Payments that work around the way you do business.

# Great tech is just the beginning.

Clover gives you powerful tools to run your business.
Beyond makes sure they work for the way you do business.

### Same-day settlement

Keep cash flow moving. Get your takings paid out the same day — including weekends and public holidays.

### Local support

Real people. Real help. When you need support, you're speaking to people right here in Australia who understand business.

### Easy setup

Less fuss. More doing. We'll help you choose, set up and get comfortable with the technology you actually need.

### Built to grow

Start where you are. Go from there. From one device to a connected POS setup across multiple locations, Clover can grow with your business.

# Business in the palm of your hand.

From table-side service to the shop floor or taking payments on the go, **Clover Flex** gives you the freedom to take orders and payments wherever business happens.

- 6" touchscreen for easy ordering and payments
- Built-in receipt printer, barcode scanner, and camera
- Accepts all major cards, including tap, chip and mobile wallets
- Connects via Wi-Fi, 4G, or hotspot, so you can take payments anywhere

Ideal for hospitality teams, retailers, service businesses and anyone who needs the flexibility to take payments away from the counter.

# Big capability. Small footprint.

**Clover Mini** gives you the functionality of a full POS without taking over your counter. Compact, capable and easy to use, it's a simple way to bring payments and everyday business tools together.

- 8" high-resolution touchscreen
- Accepts chip, tap, swipe, and mobile payments
- Connects via Ethernet, Wi-Fi, or optional 4G
- Expandable with apps for staff management, reporting, and inventory

Ideal for cafés, retail counters, professional services and businesses where space matters.

# Two screens. One smoother checkout.

Keep your team and your customers on the same page. **Clover Station Duo** combines a powerful merchant display with a dedicated customer-facing screen to make ordering, reviewing and paying quicker and clearer.

- 14” merchant touchscreen plus 8” customer-facing display
- Integrated card reader and fast receipt printing
- Manage orders, inventory, staff, and reporting in one hub
- High-speed Ethernet or Wi-Fi connection for always-on reliability

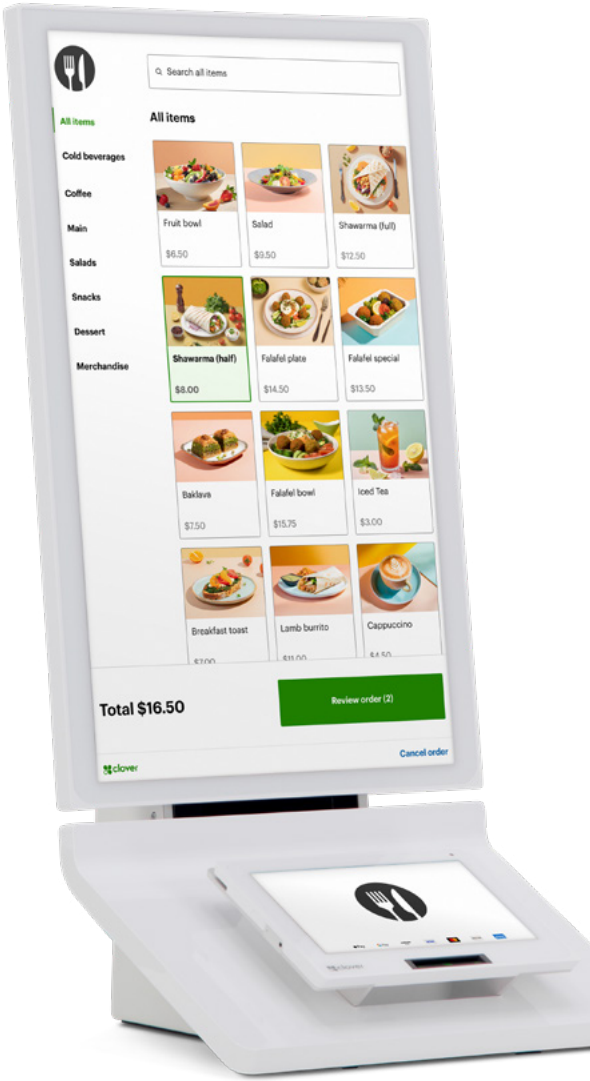

Ideal for busy retail and hospitality businesses where fast, straightforward checkout matters.

# Let customers take the lead.

Give customers a simple self-service way to browse, order and pay. **Clover Kiosk** helps busy hospitality businesses keep queues moving while freeing staff to focus on service.

- 24” full HD touchscreen with intuitive interface
- Built-in card reader for tap, chip and mobile wallets
- Customisable menu display and upsell prompts
- Free up staff to focus on food and service

Ideal for quick-service restaurants, food courts, breweries and high-volume venues.

# More than a terminal on the counter.

What happens around it matters just as much. Beyond looks at how money moves through your business — where payments are taken, how transactions are reconciled, what your team needs to see, and how the setup should work across one or multiple locations.

That means the technology is chosen around the way your business operates, with Clover giving you clearer reporting and a simpler view of day-to-day activity.

**Technology that works together. Support that stays with you.**

# In good company.

Beyond supports businesses across Australia with smarter payments, Clover technology and local service.

BRISBANE LIONS

**"On game day, every moment matters. With Clover, staff serve quickly and confidently... transactions kept flowing and the atmosphere never missed a beat."**
